# U.S. EXPORT SALES

- Outstanding Export Sales (Unshipped Balances) on AUGUST 21, 1977
- Export Shipments in Current Marketing Year
- Daily Sales Reported
   AUGUST 22 28, 1977

-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

#### EXPORT SALES REPORT

Comments on release of September 1, 1977 (based on reports from exporters for the week ending August 21 unless otherwise noted).

Wheat: Sales activity declined sharply after last week's surge. Mexico, Japan and the Philippines made sizeable purchases, sizeable quantities also reported to Egypt and Tunisia under the PL-480 program. Ecuador bought 100,000 metric tons (MT) of Hard Red Winter reported under the daily system. Exports for shippers-own-account to Canada for future export registered a significant increase of 392,600 MT. Overseas export clearances of 534,100 MT, plus exports for own account, resulted in the total weekly shipments of 926,700 MT.

<u>Corn</u>: Current marketing year (MY) sales were rather modest, with numerous European countries adding to existing balances. Total sales to unknown destinations fell as specific destinations were assigned, principally to Italy, Belgium, Japan and Taiwan. Sales for 1977/78 of 563,400 MT were about 50 percent of last week's large total. Japan, West Germany, Poland and unknown destinations dominated the activity. Norway made its initial purchase for 1977/78. Under the daily system, 250,000 MT were reported to unknown destinations. The volume of exports (476,200 MT) was down sharply from last week.

<u>Barley</u>: Sales activity was fairly heavy with a 30,000 MT optional origin sale to Iran and a 17,100 MT sale to unknown destinations the week's highlights. Sales of 111,000 MT were reported to Korea under the daily system.

<u>Sorghum</u>: The export market continued in a transitional period between the current and oncoming MY. Some new sales were reported for 1976/77 but the bulk of the interest was in 1977/78 supplies. For the current MY, the U.S. was designated as the origin on 40,000 MT of optional origin sales to Mexico. In addition, 21,000 MT were switched from unknown destinations to Portugal. Spain also added to current MY purchases. Japan, unknown destinations and Norway accounted for all the new MY purchases.

<u>Rice</u>: The market continued fairly quiet with small sales to Iran, Saudi Arabia and Liberia. The USSR added 5,100 MT of medium/short grain milled rice to earlier purchases.

<u>Soybeans</u>: MY 1976/77 sales increased slightly. Principal features were a 40,000 MT reduction in sales to Japan and new sales of 37,600 MT to the EC. Sales for the next MY increased by 268,300 MT with additional purchases by the EC, Spain and unknown destinations. Exports (173,600 MT) went primarily to Japan, the EC, Taiwan and Canada.

Soybean Cake and Meal: Sales (71,600 MT) were the heaviest in over three months due to sizeable purchases by Canada and the EC. Sales for the next MY rose 93,300 MT with increases in the EC, Japan and unknown destinations. Exports (41,000) were only 40 percent of a week ago and went primarily to the EC, Venezuela and Canada.

<u>Soybean Oil</u>: New sales (1,500 MT) were small for 1976/77. Exports (16,000 MT) went principally to India, Chile and Israel. Optional origin sales of 20,000 MT for the next MY were made to India. Contract adjustments resulted in a 5,000 MT reduction in next MY sales to India.

Cotton: Activity continues slow. MY 1977/78 sales only increased 27,600 RB as new sales were partially offset by contract adjustments. The principal sales were to Japan, Indonesia, and Greece. Sales of 9,500 RB to Belgium changed to unknown destinations. MY 1978/79 sales increased 40,500 RB as Korea and Japan added to previous purchases. Spain and Taiwan made initial purchases, and Korea switched 24,000 RB from 1977/78. Exports improved, totalling 51,900 RB, 81 percent to Asia.

Oats: Showed no significant activity.

Data shown above may not add due to rounding. 1/ Includes increases resulting from new sales, upward contract adjustments, shifts in delivery period from one marketing year to another and changes from one commodity to another. 2/ Net foreign purchase activity. A purchase from a foreign seller is a transaction contracting to buy U.S. produced commodity from a firm outside the U.S. — not involving a cancellation or buy-back of a reported sale. . 3/ Includes decreases resulting from buy-backs of all or part of a contract balance by mutual consent, unilateral cancellation by one party which would result in a contract dispute, downward contract adjustments, shifts in delivery period from one marketing year to another, and changes from one commodity to another. 4/ Does not include exports for exporter's own account.
